

# Did you know?

General practice in Northern Ireland only gets 5.4% of the whole health budget. We see or speak to over 200,000 patients a week.

## More funding would mean we could:

- Train and hire more GPs
- Deliver the services you require
- Make it easier to get the appointments you need

**General practice in Northern Ireland needs to be properly funded.**

**We know you deserve better than this.**

**#GPsAreOnYourSide**
